Product Discontinuation of the Summation Current Transformers

Dear Sir or Madam,

We would like to inform you about an upcoming change in our product portfolio that affects the summation current transformers.

As part of our ongoing portfolio development, the **summation current transformers - class 1 for split core current transformers** is being discontinued. With this step, we are consistently aligning our portfolio with long-term availability, technological advancement, and future-proof system solutions.

Product Discontinuation Timeline - Please note the following key dates:

Last order: **/**

Last delivery: **01 November 2026**

End of standard support: **01 November 2027**

After the standard support period expires, Janitza will no longer provide regular technical support, firmware updates, or repairs for the affected device. Warranty obligations for devices delivered prior to this date will, of course, be fulfilled in accordance with the terms of the contract. New software features and non-security-critical bug fixes will no longer be released after this date.

Migration Recommendations

No direct successor product is available for the discontinued STS series summation current transformers.

Our sales staff and solution partners are available to answer technical questions or advise you on alternative devices. Your representative will also keep you informed of any possible changes to the planned launch date.

Kind regards,

ppa. Thomas Hilbig
Vice President Product Management
